- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

## 3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages \_\_\_\_\_
- ☐ the claims, Nos. \_\_\_\_\_
- ☐ the drawings, sheet \_\_\_\_\_

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).\*\*

\* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this opinion as "originally filed." and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

\*\* Any replacement sheet containing such amendments must be referred to under item I and annexed to this report.

**2. Citations and explanations (Rule 70.7)**

Reference is made to the following documents:

D1: US 6,262,785 B(17 JULY 2001)

D2: EP 0880049 A(25 NOV. 1998)

The present invention relates to a portable multi-display apparatus. It has a technical feature of a framework provided at one side with a screen joint portion wherein one side of the display which is individually installed at multiple points of the adjacent panel housing, allows a display to be mounted firmly onto the panel housing.

D1: Discloses a portable display device including a main body, an extension portion connected to the main body such that the extension portion can be folded over and spread apart.

D2: Discloses an LCD device which includes an LC panel having a display area, a light source joined with the LC panel, a mounting frame coupled to a surface of the light unit and sides of the LC panel, a casing frame, and a fastening element joining together the mounting frame and the outer casing frame through the sides of the mounting frame and the outer casing frame.

D1 discloses a technical means wherein a multi-display apparatus by an extension structure is folded over or spread apart. D2 discloses a technical component wherein an LCD device is installed in a mounting frame, including a LC panel. However, they do not disclose a technical component about the framework being provided on one side with a screen joint portion, which is a technical feature of the present invention.

The invention, according to Claims 1-20, is therefore considered to be new, to involve an inventive step and to be industrially applicable.

Applicant  KIM, Si Han		

This International search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 3 sheets.

☐ It is also accompanied by a copy of each prior art document cited in this report.

**1. Basis of the report**

a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing:

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of invention is lacking** (See Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☒ the text is approved as submitted by the applicant.
